

## FOR IMMEDIATE RELEASE

### Enviroquip, LLC Acquires Pendpac, Inc

**6/27/11**

ONTARIO, CA, JUNE 27, 2011 – Enviroquip, LLC announces the acquisition of Pendpac, Inc., a major manufacturer of Automated Side Loader and Front Loader Refuse Truck Bodies, Compactors and Leaf Collectors.

Enviroquip, LLC, a division of Myers Power Products, Inc, is an established designer and builder of refuse containers, compactors, roll-off trucks and trailers with headquarters in Ontario, CA and manufacturing facilities in Sonora, Mexico. Making use of vertical integration and efficient production techniques, Enviroquip manufactures, assembles and mounts refuse bodies at its 150,000 sq. ft. state-of-the-art plant.

Pendpac, Inc. is a recognized innovator and cutting edge developer of premium refuse truck bodies. Through the development of the pendulum packer and zero radius arm technologies, Pendpac established a new benchmark for the industry. Pendpac's seasoned sales, engineering and manufacturing team strives to continue this tradition of providing superior quality products and service.

With this acquisition, Enviroquip leverages its national and international presence to more fully develop its growth and product placement opportunities in the refuse truck market. Pendpac's products are ideally suited to answer some of the greatest challenges facing refuse haulers of today. Through the use of efficient hydraulic and control systems as well as safe and reliable packing and handling designs, Pendpac supplies some of the best performing trucks in the industry.
